

The E-2000 connector by DIAMOND - inventor of this reliable, high-performance fiber optic solution - offers low insertion loss and multiple interface options for versatile, demanding applications.

As a leading fiber cable product manufacturer, KOC provides you various fiber connectors. Our E2000 connector features high precision alignment, low insertion loss and back reflection loss.

E2000 Connector is a fiber optic patch cable assembly with E2000 connectors UPC to APC. The cable diameter is 2mm.

These connectors maintain the small form factor of LC systems while incorporating E2000's advanced shutter mechanism and performance standards, ideal for high-density environments.

*) The values stated were determined in accordance with the measurement procedures prescribed by IEC 61300-3-4, IEC 61300-3-6 respectively. If other measuring methods are used, deviating values ...

The connector can be supplied as a pre-assembled connector or as connector kits. APC or PC ferrule are available. IL are available.

Lever Connector Compact Duplex Two E-2000 connectors can be joined together to make a duplex connector by using the COMPACT DUPLEX CLIP and the DUPLEX CONNECTOR LEVER.

E-2000 is an optical fiber plug connector, available for both single mode and multi-mode applications, featuring a spring-loaded shutter and dust-cap. The E-2000 Connector series is a type of fiber optic ...

- Through its precision ferrule and its tuning with excentricity limit according to DINEN 61755-3-2 grade B specification, our E-2000 HRL reaches low insertion loss IL and high return loss RL values at ,each ...

The E2000 connector features a push-pull coupling mechanism and an automatic metal shutter within the connector, providing protection against dust and laser beams.

Fiber-Life supply various kinds of Single Mode and Multimode fiber optic connectors for E2000 (LSH) applications. Each fiber optic connector is functionally tested before shipping.
