200G/400G/800G optical module features up to 40km transmission distances using QSFP56/QSFP-DD footprints for data center interconnect applications - FiberMall

Westbury's industry-leading 800G OSFP optical transceiver is based on its established and scalable Silicon Photonics platform and suited to high capacity short-distance transmission up to 2km across ...

Mouser offers inventory, pricing, & datasheets for Fiber Optic Transmitters, Receivers, Transceivers.

A fibre optic transmitter is the part of a fibre optic network that translates an electronic signal into an optical one, which is sent across the network.

Westbury's industry-leading 800G OSFP optical transceiver is based on its ...

LightOptics provides 800G transceivers featuring high-performance and 100% compatibility tested and certified in our lab for use with Arista, Cisco, Dell, Juniper, Mellanox, Nokia

This cutting-edge product offers an 800Gb Octal Small Form-factor Pluggable (OSFP) optical module with a sleek top-closed fin design, perfect for optical communication over distances of up to 2km.

The 800G Digital Coherent Optics (DCO) family of transceivers are available in two small form-factors, QSFP-DD and OSFP, which enable them to plug directly into routers/switches for IP-over-DWDM.

The 800GBASE 2x FR4 OSFP optical transceiver module is designed for 800GBASE Ethernet throughput up to 2km link lengths over OS2 single-mode fibre (SMF) via dual duplex LC/UPC ...
