

Waterproofing of Water Pipes and Cable Trays

Seal cable penetrations with our modular firestop solutions, designed to create water-, smoke- and gas-tight barriers in energy and industry projects both onshore and offshore.

Professional guide to waterproofing building penetrations for pipes, cables, and equipment. Learn sealing strategies, material selection, and ...

WSP units accept any cable size and quantity. Our units install before or after tray and cable. Cable maintenance and changes are simple and easy -- no additional parts are needed. Our units are ...

Multi-Cable and Cable-Tray Weatherstop Penetrations
 10 Reasons to Count on WSP For Your Weatherseal Needs
 Typical WSP Weatherstop Unit Construction
 MSDS Sheets
 WSP weatherstops are designed to seal penetrations of any type in walls or floors by cable tray, cable conduit, pipe and/or bus duct. The WSP system utilizes a powder coated or galvanized steel frame that encompasses the entire tray or duct at the point of penetration. These steel frames are chemical, water and corrosion resistant and are sui...

Applications are designed to seal any type of cable penetration, as well as any metallic, composite or plastic pipe penetration. The system can be used for single or multiple pipes, or any combination of ...

Professional guide to waterproofing building penetrations for pipes, cables, and equipment. Learn sealing strategies, material selection, and installation best practices.

One of the challenges with sealing around penetrations is that certain services (e.g. combustible pipes) will melt in the event of a fire, which results in even larger apertures that must be closed immediately.

Waterproofing of Water Pipes and Cable Trays

Learn about Waterproof and Dustproof Performance Testing of Cable Trays. Understand IP ratings, test methods, and why it's vital for cable protection.

The ROOFFPORT [®] system provides a range of products that enables the safe routing of smaller cables and pipes through the waterproofing layer. Designed to integrate with the roof system they provide a ...

You find roxtec cable and pipe seals in many applications throughout the construction industry. Discover the idea behind our innovative sealing solutions and learn how to apply roxtec for applications in your ...

The point where cable trays enter a building can be vulnerable to wind and rainwater ingress, so careful planning and effective weatherproofing of the building penetration are critical.

The waterproofing concept illustrated in Figure 1 for below-grade penetrations is very straightforward: lap the waterproofing membrane onto the penetration to create a seal between the waterproofing ...
