

The KVM Extender lets you control a server or computer over a single mode or multimode cable at distances of up to 30 km (depending on the SFP used, fiber type, and fiber bandwidth).

With the capability to support up to 16 pairs of transmitter (TX) and receiver (RX) devices via a single Gigabit Ethernet switch, this fiber optic KVM extender offers seamless scalability and integration ...

The Fiber Extender is designed to extend signals over Optical Fiber for long-distance transmission. Rexton is good at providing a variety of KVM solutions, including Fiber KVM extenders. Our ...

ServSwitch Dual DVI Single-Mode Fiber Optic KVM Extender, USB For computers with dual video heads, extend signals over single-mode fiber.

REMOTE ACCESS: USB & 4K HDMI KVM extender over fiber controls a KVM switch/console or PC using a fiber optic cable at distances up to 984"/300m (multimode cable) or 1,640"/500m (single mode ...

It adopts an all-fiber architecture, with fiber-optic KVM technology as the core, developed based on FPGA, non-TCP/IP private protocol, and non-switch closed-loop all-optical architecture to ...

Fiber optic cables can have various strengths such as armored, loose tube, direct burial and more. These characteristics are important because every installation has different environmental and ...

Fiber optic cables can have various strengths such as armored, loose tube, direct burial and more. These characteristics are important because every installation ...

Matrox Extio F2408 is a point-to-point, KVM extension solution that separates the keyboard, mouse, audio peripherals, and up to 4 displays from the rest of the computer by up to 1 km (3280 feet) via ...

Thinklogical manufactures mid-to-large scale fiber-optic KVM matrix switches that are IA-accredited to manage multiple classifications of information through a single switch, simplifying authorized ...
